Knitted Summer Skirt

Pretty Girl Skirt In Simple Stockinette and eyelet Stitches Pattern

This is the first skirt I designed for my daughters when they were two. They are five now and skirt still fits them but it's getting a bit shorter. The skirt is knitted in round using circular knitting needles. It knitted in 3 tier levels. The second tier has twice as many stitches as the first tier, and the third has twice as many stitches as the second. The edge of the skirt is composed of chain crochet and single crochet.

I blocked the skirt on a towel on my carpet floor. The skirt looked like a big circle with a hole in the middle. This is one of my favorite skirt because I like the way it hang on the body.

I hope I didn't leave anything out.

The skirt pattern is pretty much the same as the other [toddler skirt](#) except this one has 3 tiers instead of 2.
