

We call it a “Boo! Halloween Candy Bag”. A fun and fast knitting project for this Halloween. You can use my design (actually my kid) for your bag or let your kid design his or her own. Here is how my kid’s Boo! bag turned out (see pic on left).

Skill level: Easy -intermediate

Finished Measurement:

Approximately 7 x 9.5 inches

Gauge: 4 sts per inches on size 8 US (6.5mm)

Materials:

1. 2 (50g) balls of heavy worsted weight yarn in orange, 1 ball in black, and 1 ball in white.
2. 16 inch circular knitting needle size 8 US (5mm)
3. Stitch marker
4. Row counter

5. Tapestry needle
6. Scissor
7. Crochet hook (optional for bottom seam) size H

Direction:

Body: Cast on 60 sts with orange yarn. Join them in round without twisting stitches. Place marker at the beginning of the round before 1st st. Knit 2 rounds. Follow pattern in Pattern chart #1 below starting with round 3. Please See *remark below. When completing chart #1, continue knitting with the main orange color yarn until finishing round 16.

Next round (rnd 17): Begin pattern chart #2 on round 17. Continue knitting with the main color after finishing the pattern until completing rnd 50.

Next round (rnd 51): Purl.

Rnd 52: Knit. Repeat these 2 rnds twice. Bind off all stitches loosely.

Direction for Strap or Handle

CO 4 sts. Knit these 4 sts in rows in stockinette stitch (knit on the right side, purl on the wrong side). Always slip the first stitch. Bind off all stitches and sew ends to the body of the bag where appropriate.

You can make a long shoulder strap or a short handle whichever your kid's preference is. My kid requested a strap because she said last year her candy bag got too heavy to carry by hand. Hopefully shoulder strap will help eliminate the weight or I just have to come along with her and help carry the candies!.

Sew the bottom opening of the bag with the same color yarn. Tie and trim off loose ends on the wrong side. Now the hard work is done. Give the bag to your little one to show off on the Halloween's Trick-or-treat night !

Optional crochet bottom edge: Do single crochet along the bottom edge with the black yarn.

Pattern Chart #1: BOO! diagram for Halloween Candy Bag

Pattern Chart # 2 : Ghost and bats pattern for Halloween Candy Bag

***Remark:** I carried an orange yarn along every single round when working the patterns without cutting it off. I cut the black and white yarns off every time I completed each round leaving about 3 inches tails. I tied them together on the wrong side and trimmed the loose ends off when I finished the bag.
